Unser Schweizer Versprechen: Qualität auf höchstem Niveau – seit 1849

Das Schweizer Familienunternehmen ISA bodywear gehört zu den führenden Herstellern von hochwertiger Tagwäsche, Nachtwäsche und Loungewear für anspruchsvolle Kundschaft im Segment Damen, Herren und Kinder/Babies. Schon seit über 170 Jahren und mittlerweile in 7. Generation begeistern wir unsere Kunden mit komfortablen und langlebigen Produkten, welche grösstenteils in der Schweiz und in Europa gefertigt werden. Qualität wird bei uns grossgeschrieben und auch gelebt: Wir verwenden ausschliesslich Stoffe, die nach OEKO-TEX® Standard 100 zertifiziert sind und produzieren fast 80% unserer Stoffe noch selbst in der eigenen Strickerei in Amriswil.
Unser Nachhaltigkeitsverständnis geht weit über den Einsatz von umweltfreundlichen Rohstoffen wie bspw. Max Havelaar Bio- und Fairtrade-Baumwolle oder Tencel™ Micromodal hinaus. Dank kurzer Transportwege zwischen unseren Standorten in der Schweiz und Portugal ist die CO_2-Bilanz gering. Zudem decken wir in unserem Werk in Portugal 100% der benötigten Prozessenergie mit Solarstrom aus unserer eigenen Anlage. ISA bodywear hat dafür die Auszeichnung für Energieeffizienz und Klimaschutz von Act erhalten. Wie es auch unsere Vorfahren schon erfolgreich getan haben, führen wir mit Stolz die Mission fort: Wir möchten unsere Kunden mit hochwertiger, komfortabler und möglichst nachhaltig produzierter Tag- und Nachtwäsche begeistern.
Dafür stehen wir mit unserem Namen ein.

Notre engagement suisse: une qualité au plus haut niveau – depuis 1849

L'entreprise familiale suisse ISA bodywear compte parmi les principaux fabricants de lingerie de jour, de lingerie de nuit et de loungewear de qualité supérieure pour une clientèle exigeante dans le segment des femmes, des hommes et des enfants/bébés. Depuis plus de 170 ans et depuis 7 générations, nous enthousiasmons nos clients avec des produits confortables et durables, fabriqués en grande partie en Suisse et en Europe. Plus que des mots, la qualité est notre priorité absolue: nous utilisons exclusivement des tissus certifiés OEKO-TEX® Standard 100 et produisons encore nous-mêmes près de 80% de nos tissus dans notre usine de tricotage à Amriswil.
Notre conception de la durabilité va bien au-delà de l'utilisation de matières premières respectueuses de l'environnement, comme le coton bio et équitable Max Havelaar ou le Tencel™ Micromodal. Grâce aux courtes distances de transport entre nos sites en Suisse et au Portugal, le bilan carbone est faible. De plus, dans notre usine au Portugal, nous couvrons 100% de l'énergie nécessaire aux processus avec de l'électricité solaire produite par notre propre installation. ISA bodywear a reçu pour cela le prix de l'efficacité énergétique et de la protection climatique d'Act.
Comme nos ancêtres y sont parvenus avec succès, nous poursuivons fièrement notre mission: nous souhaitons enthousiasmer nos clients avec des lingerie de jour et de nuit de qualité, confortables et produits de manière aussi durable que possible.
Notre nom en est le garant.

ISA bodywear

La nostra promessa svizzera: qualità ai massimi livelli, dal 1849

L'azienda familiare svizzera ISA bodywear è uno dei principali produttori di biancheria per il giorno e la notte nonché di loungewear per una clientela esigente nei segmenti uomo, donna e bambino. Giunti oramai alla settima generazione, da 170 anni entusiasmiamo i nostri clienti con prodotti comodi e durevoli realizzati in massima parte in Svizzera e in Europa. La qualità ha per noi una grande importanza e vogliamo dimostrarlo concretamente: utilizziamo esclusivamente materiali con certificazione OEKO-TEX® Standard 100 e produciamo ancora autonomamente quasi l'80% dei nostri tessuti nel nostro stabilimento di Amriswil.
La nostra idea di sostenibilità va ben oltre l'impiego di materie prime rispettose dell'ambiente, come per esempio il cotone biologico ed equo e solidale Max Havelaar oppure il Tencel™ Micromodal. Grazie ai tragitti di trasporto brevi tra le nostre sedi in Svizzera e Portogallo, anche il bilancio di CO_2 è contenuto. Inoltre, nel nostro stabilimento lusitano copriamo 100% del fabbisogno energetico dei processi con l'elettricità prodotta dal nostro impianto fotovoltaico. Grazie a queste misure ISA bodywear ha ottenuto da parte di Act un riconoscimento per l'efficienza energetica e la protezione del clima.
Come i nostri predecessori hanno fatto con successo prima di noi, portiamo avanti con orgoglio la nostra mission: entusiasmare la nostra clientela con abbigliamento giorno e notte e di alta qualità prodotta nel modo più sostenibile possibile.
Un impegno che garantiamo col nostro nome.

Our Swiss promise: Quality of the highest level – since 1849

The Swiss family-owned company, ISA bodywear, is one of the leading manufacturers of high-quality daywear, nightwear and loungewear for discerning customers in the men, women, children and babies segment. For over 170 years, we – now the 7th generation – have been inspiring our customers with comfortable and durable products, mainly manufactured in Switzerland and Europe. Quality is very important to us, and it's not just empty words: we only use OEKO-TEX®-Standard-100-certified fabrics, and we produce almost 80% of our fabrics at our own knitting factory in Amriswil.
For us, sustainability does not just mean environmentally friendly raw materials, such as Max Havelaar Organic and Fairtrade cotton or Tencel™ Micromodal. Thanks to the short distance between our sites in Switzerland and Portugal, our carbon footprint is low. What's more, at our factory in Portugal, we get 100% of the energy we need for our manufacturing process from the solar power we produce at our own site. ISA bodywear received the Energy efficiency and climate protection award from Act for this.
We are proud to continue the mission, just as our ancestors successfully did before us: we want to inspire our customers with high-quality, comfortable day- and nightwear that is as sustainably produced as possible.
We stake our reputations on that.

OUR SWISS PROMISE – INIMITABLE TREASURES

SUMMER DAYS – WILLKOMMEN IM FRÜHLING/SOMMER 2024

Die warmen Sonnenstrahlen beleben die Natur, und auch wir Menschen sehnen uns nach Erfrischung und Abenteuer. Unsere neue Kollektion spiegelt genau das wider - inspiriert von den natürlichen Schönheiten der Landschaft und des Wassers.

Auch in diesem Sommer präsentiert unsere Herrenkollektion erneut eine hochwertige Auswahl an nachhaltigen Materialien, die höchste Ansprüche an Tragekomfort und Langlebigkeit erfüllen. Erfrischende Blautöne in allen Nuancen bilden die Grundlage unserer Farbpalette. Diese werden durch erdige Beigetöne, rotes und leuchtendes Zitronengelb ergänzt. Ein beruhigendes Balsamgrün und ein zarter Fliederton runden das Bild ab.

Unsere Damenkollektion ist farbenfroh und sprüht vor Leichtigkeit! Kräftige Akzentfarben wie Pink und Zitrone werden mit hellen Nuancen fein abgestimmt, um eine harmonische und ausgewogene Farbpalette zu schaffen. Diese Sommerkollektion bietet eine Vielfalt an verschiedenen Dessinierungen, von verspielten Blumenmustern bis hin zu geometrischen Formen, Wir legen Wert auf hohe Qualität und Komfort, damit Sie sich in unserer Tag- und Nachtwäsche rundum wohlfühlen können.

Unsere Baby- und Kidskollektion begeistert auch in diesem Sommer mit hochwertiger Bio-Baumwolle. Uns ist wichtig, dass sich die Kleinen in ihrer Haut wohlfühlen und deshalb setzen wir auf Materialien, die sanft zur zarten Babyhaut sind. Die Farben und Dessins unserer Baby- & Kidskollektion sind inspiriert von unserer Damen- und Herrenkollektion und sorgen für einen einheitlichen Look in der Familie.

SUMMER DAYS – WELCOME TO SPRING/SUMMER 2024

The warm rays of the sun wake up nature, and we humans also long to be refreshed and to undertake new ventures. Our new collection reflects just that – inspired by the natural beauty of the landscape and water.

This summer, our men's collection once more includes a high-quality selection of sustainable materials that are extremely comfortable and durable. Our colour palette is based essentially on refreshing blues of all shades. To this, we have added earthy beige tones, red and bright lemon yellow. A soothing balm green and a delicate lilac tone complete the scene.

Our women's collection is colourful and brimming with light! Strong colours such as pink and lemon are harmonised skilfully with light shades to create a harmonious and balanced colour palette. This summer collection offers a wide variety of different designs, from playful floral patterns to geometric shapes. We value high quality and comfort, so you can feel comfortable in both our day and night wear.

This summer, our Baby and Kids collection is bound to be a success once more thanks to its high-quality organic cotton. We are keen for little ones to feel comfortable, which is why we use materials that are gentle on a baby's delicate skin. The colours and designs of our Baby & Kids collection are inspired by our women's and men's collection, so the whole family can wear matching clothing.

SUMMER DAYS – BIENVENUE AU PRINTEMPS/ÉTÉ 2024

Les rayons chauds du soleil animent la nature, et nous aussi, les humains, nous aspirons à la fraîcheur et à l'aventure. C'est exactement ce que reflète notre nouvelle collection, inspirée par les beautés naturelles du paysage et de l'eau.

Cet été, notre collection pour hommes présente à nouveau une sélection de qualité de matériaux durables qui répondent aux exigences les plus élevées en matière de confort et de durabilité. Des tons bleus rafraîchissants dans toutes les nuances constituent la base de notre palette de couleurs. S'y ajoutent des tons de beige terreux, de rouge et de jaune citron lumineux. Un vert balsamique apaisant et un lilas délicat complètent le tableau.

Notre collection pour femmes est colorée et pétillante de légèreté! Des accents forts de couleurs comme le rose et le citron sont finement assortis à des nuances claires afin de créer une palette de couleurs harmonieuse et équilibrée. Cette collection d'été offre une grande variété de dessins, des motifs floraux ludiques aux formes géométriques. Nous accordons une grande importance à la qualité et au confort, afin que vous puissiez vous sentir parfaitement à l'aise dans nos vêtements de jour et de nuit.

Cet été encore, notre collection Baby & Kids nous enthousiasme par son coton bio de qualité supérieur. Il est important pour nous que les petits se sentent bien dans leur peau et c'est pourquoi nous misons sur des matières qui sont douces pour la peau délicate des bébés. Les couleurs et les motifs de notre collection Baby & Kids s'inspirent de notre collection pour hommes et femmes et sont les garants d'un look homogène pour toute la famille.

SUMMER DAYS – BENVENUTI NELLA PRIMAVERA/ESTATE 2024

I caldi raggi del sole ravvivano la natura, mentre le persone cercano refrigerio e avventura. La nostra nuova collezione rispecchia proprio questo sentimento, prendendo ispirazione dalle bellezze naturali del paesaggio e dell'acqua.

Anche quest'estate la nostra collezione uomo presenta nuovamente una pregiata selezione di materiali sostenibili che soddisfano i più elevati requisiti in termini di comfort e durata. I freschi toni del blu in tutte le sue sfumature costituiscono la base della nostra palette cromatica, a cui si aggiungono le terre beige, il rosso e il luminoso giallo limone. Completano il quadro un rilassante verde balsamo e un dolce lilla.

La nostra collezione donna è caratterizzata da colori vivaci e letteralmente sprigiona leggerezza! Colori intensi come il rosa shocking e il limone sono sapientemente combinati con sfumature chiare per creare una palette armonica e bilanciata. Questa collezione estiva propone una gran varietà di diversi motivi, dai leziosi disegni floreali fino alle forme geometriche. Da parte nostra, diamo valore a un elevato livello di qualità e comfort per farvi sentire pienamente a vostro agio con i nostri capi per il giorno e la notte.

Anche questa estate la nostra collezione Baby & Kids saprà entusiasmarvi grazie al pregiato cotone bio dei modelli estremamente comodi. Per noi è importante che anche i più piccoli siano a loro agio e per questo puntiamo su materiali morbidi, adatti alla loro pelle delicata. I colori e i motivi della nostra collezione Baby & Kids sono ispirati alle nostre collezioni donna e uomo e assicurano così un look in abbinamento per tutta la famiglia.

NOS SUSTAINABLE

COMMITMENT TO SUSTAINABLE QUALITIES

DIE NACHHALTIGKEIT LIEGT UNS AM HERZEN

Wir bekennen uns zu einer fairen und sauberen Herstellung von Textilien. Entdecken Sie auf den folgenden Seiten unsere besonders nachhaltigen NOS-Produkte für Damen und Herren. Durch die Verwendung von ausgewählten Materialien wie bspw. Tencel™ Micromodal, Tencel™ Lyocell oder Max Havelaar Bio- und Fairtrade-Baumwolle leisten wir einen wichtigen Beitrag zugunsten unserer Umwelt.

LA DURABILITÉ NOUS TIENT À CŒUR

Nous nous engageons à produire des textiles de manière équitable et propre. Découvrez dans les pages suivantes nos produits NOS particulièrement durables pour hommes et femmes. En utilisant des matériaux sélectionnés comme le Tencel™ Micromodal, le Tencel™ Lyocell ou le coton bio et équitable Max Havelaar, nous apportons une contribution importante en faveur de notre environnement.

LA SOSTENIBILITÀ CI STA A CUORE

Crediamo in una produzione dei tessuti equa e pulita. Scoprite sulle prossime pagine i nostri articoli NOS da donna e da uomo, caratterizzati da un livello di sostenibilità particolarmente elevato. Grazie all'uso di materiali selezionati – come per esempio Tencel™ Micromodal, Tencel™ Lyocell o cotone biologico ed equo e solidale Max Havelaar – forniamo un importante contributo a favore del nostro ambiente.

SUSTAINABILITY IS VERY DEAR TO US

We are committed to fairly and cleanly producing textiles. On the following pages, you'll discover our particularly sustainable NOS products for men and women. By using selected materials such as Tencel™ Micromodal, Tencel™ Lyocell or Max Havelaar Organic and Fairtrade cotton, we are helping the environment enormously.

FREE CUT

FEEL FREE AND COMFORTABLE

FREE CUT – SO ANSCHMIEGSAM, UNSICHTBAR, NICHT SPÜRBAR

Nahtfreie Abschlüsse, flache Nähte, perfekte Passform und ein aussergewöhnlich hautfreundlicher, geschmeidiger Micromodal®-Mix. Wie eine zweite Haut liegt das Material schwerelos, unsichtbar unter jedem Outfit – ein Tragekomfort für jeden Tag und jede Situation.

Das aus natürlicher Zellulose gewonnene und auf innovativste Weise veredelte Micromodal® ist ein besonders hochwertiges, seidig-feines, fliessendes Material, das sich zudem durch hervorragende Feuchtigkeitsaufnahme und Atmungsaktivität auszeichnet.

FREE CUT – ÉPOUSE PARFAITEMENT LA FORME DU CORPS, EST INVISIBLE ET IMPERCEPTIBLE

Finitions sans coutures, coutures plates, une coupe parfaite et un mélange Micromodal® exceptionnellement souple et doux pour la peau. Comme une seconde peau, le tissu semble en apesanteur, reste invisible sous la tenue, et offre un confort optimal tous les jours et en toutes circonstances.

Fabriqué à partir de cellulose naturelle de la manière la plus innovante, le Micromodal® est une matière fluide, soyeuse et de qualité supérieure qui se distingue également par son excellente absorption de l'humidité et sa respirabilité.

FREE CUT – AVVOLGENTE, INVISIBILE, IMPERCETTIBILE

Bordi senza cuciture, cuciture piatte, vestibilità perfetta e un mix di Micromodal® estremamente soffice e delicato sulla pelle. Come una seconda pelle, il materiale quasi non ha peso, è invisibile sotto qualsiasi capo e offre il massimo comfort per ogni giorno e ogni situazione.

Il Micromodal®, ottenuto dalla cellulosa naturale e rifinito con le tecniche più innovative, è un materiale particolarmente pregiato, setoso e delicato, in grado di assorbire in modo eccellente l'umidità e quindi perfettamente traspirante.

FREE CUT – SO CUDDLY, INVISIBLE, NOT NOTICEABLE

Seamless finishes, flat seams, perfect fit and an exceptionally skin-friendly, supple Micromodal® mix. Like a second skin, the material lies weightless, invisible under any outfit, a wearing comfort for every day and every situation.

Made from natural cellulose and refined in the most innovative way, Micromodal® is a particularly high-quality, silky-fine, flowing material that also stands out for its excellent moisture absorption and breathability.

RECOT2 LINE

MAKE YOUR STATEMENT

RECYCLED & BIO

75% zertifizierte Bio-Baumwolle und 25% recycelte Baumwolle bilden die Basis für unser Recot²-Garn.

Notre tissu Recot² est constitué à 75% de coton bio certifié et 25% de coton recyclé.

Il 75% di cotone biologico certificato e il 25% di cotone riciclato costituiscono la base per il nostro filato Recot².

Our Recot² yarn is made up of 75% certified organic cotton and 25% recycled cotton.

TO SAVE WATER

Mit unserem Recot²-Garn sparen wir wertvolle Ressourcen, und zwar 5000 Liter Wasser pro Kilogramm Garn.

Grâce à notre tissu Recot², nous économisons de précieuses ressources, notamment 5'000 litres d'eau par kilo de tissu.

Con il nostro filato Recot² risparmiamo preziose risorse, ovvero 5'000 litri d'acqua per chilogrammo di filato.

Our Recot² yarn uses much less in the way of natural resources – we save 5,000 litres of water per kilo yarn.

SOLAR POWER

Wir achten auf ressourcenschonende Verfahren und produzieren 50% des benötigten Stroms mit Sonnenkraft.

Nous respectons des procédés qui préservent les ressources et produisons 50% du courant nécessaire à partir d'énergie solaire.

Prestiamo attenzione ai processi di risparmio delle risorse e produciamo il 50% del bisogno di energia elettrica con l'energia solare.

We aim to use resources sparingly, and we generate 50% of the electricity we use from solar power.

WHAT WE STAND FOR

Wenn wir nachfolgenden Generationen eine bessere Welt überlassen wollen, dann müssen wir handeln. «ISA Recot²» ist nicht einfach eine nachhaltig produzierte, modische Unterwäsche, sondern ein Lebensgefühl mit gutem Gewissen in Bezug auf die Umwelt.

Si nous voulons léguer un meilleur monde aux générations futures, nous devons agir. «ISA Recot²» n'est pas qu'un simple sous-vêtement tendance, c'est également un style de vie avec une pleine conscience environnementale.

Se vogliamo lasciare un mondo migliore alle generazioni future, allora dobbiamo agire. «ISA Recot²» non è semplicemente un intimo prodotto in modo ecologico e alla moda, ma un'attitudine alla vita con la coscienza pulita nei confronti dell'ambiente.

If we want to leave a better world to the generations following us, we need to act. "ISA Recot²" is not just sustainably produced, fashionable underwear – it's a lifestyle with a clear environmental conscience.

FUNCTIONAL WEAR

SPORTY AND FUNCTIONAL UNDERWEAR

Trotzen Sie jedem Wetter: Unsere Funktions- und Sportwäsche besteht zwar aus unterschiedlichen Materialien, alle Artikel haben aber eine wichtige Gemeinsamkeit: Die Produkte halten Sie bei körperlicher Anstrengung trocken und warm. Wir verwenden nebst natürlichen Fasern wie Merinowolle oder Schurwolle, die von sich aus viel Feuchtigkeit aufnehmen können, auch spezielle Micro-Polyester-Fasern, welche die Feuchtigkeit und den Schweiss nach aussen transportieren, geruchshemmend und antibakteriell wirken. Ein wichtiger Tipp: Tragen Sie über unserer Functional Wear Kleidungsstücke, welche die Feuchtigkeit ebenfalls nach aussen transportieren können. Denn die beste Unterwäsche versagt ihre Funktion, wenn die Feuchtigkeit von der darüber liegenden Kleidungsschicht zurückgehalten wird.

Défiez toutes les conditions météorologiques: bien que nos vêtements fonctionnels et de sport soient composés de différentes matières, tous les articles ont un point commun important: ils vous gardent au sec et au chaud pendant l'effort physique. Outre les fibres naturelles telles que la laine mérinos ou la laine vierge, qui absorbent naturellement beaucoup d'humidité, nous utilisons également des fibres spéciales en micro-polyester qui évacuent l'humidité et la transpiration vers l'extérieur et qui ont un effet anti-odeur et antibactérien. Un conseil important: portez par-dessus nos vêtements fonctionnels des vêtements qui peuvent également évacuer l'humidité vers l'extérieur. En effet, les meilleurs sous-vêtements ne peuvent remplir leur fonction si l'humidité est retenue par la couche de vêtements située au-dessus.

Affrontate qualsiasi condizione atmosferica! I nostri articoli funzionali e sportivi sono realizzati in diversi materiali, ma hanno tutti un'importante caratteristica in comune: vi terranno al caldo e all'asciutto durante lo sforzo fisico. Oltre a fibre naturali come lana merino o lana vergine, che sono naturalmente in grado di assorbire molta umidità, utilizziamo anche speciali fibre di micro-poliestere, che trasportano umidità e sudore verso l'esterno, riducono gli odori e hanno un'azione antibatterica. Un consiglio importante: sopra ai nostri capi di abbigliamento funzionale indossate indumenti a loro volta traspiranti. Anche la migliore biancheria del mondo risulta infatti inefficace se l'umidità viene trattenuta dallo strato di vestiti immediatamente superiore.

Ready to brave any weather: our functional and sports clothes are made of various materials, but all articles have something in common: the products will keep you dry and warm while you're doing physical activity. In addition to natural fibres, such as merino wool or fleece wool, which can absorb a lot of moisture, we also use special micro-polyester fibres that wick away moisture and sweat, and that have odour-inhibiting and anti-bacterial qualities. An important tip: wear clothing over our functional items that can also wick away moisture. Even the best underwear won't work if moisture is kept in by the layer of clothing above it.

Reine feinste Schurwolle: Wolle ist das einzige Naturprodukt, das 30% des Eigengewichtes an Feuchtigkeit aufnehmen kann und somit angenehm klimaregulierend wirkt.

Pure laine vierge fine: La laine est l'unique produit naturel qui peut absorber 30% de son propre poids en humidité et ainsi permettre une confortable régulation climatique.

La più fine e pura lana vergine: La lana vergine é l'unico prodotto naturale capace di assorbire il 30% della massa propria di umidità e può quindi avere una piacevole regolazione del clima.

Finest pure virgin wool: Wool is the only natural product that can absorb 30% of its own weight in moisture and thus keeps your personal climate zone comfortable.

STAY DRY
FEEL SAFE

Das Protect-Shirt von ISA bodywear verhindert dank seiner innovativen 3-Lagen-Technologie Schweissflecken unter den Achseln. Vorbei mit dem Stress um auffallende Schweiss-flecken unter den Achseln hin zu mehr Sicherheit und Bewegungs-Freiheit. Die Magie steckt im ausgeklügelten Aufbau der Achsel-partie, welche grossflächig mit einer innovativen 3-Lagen-Technologie verarbeitet wird. Direkt auf der Haut liegt ein anti-bakteriell und gleichzeitig sehr feuchtigkeitsdurchlässiger Trevira Stoff, welcher für ein trockenes Gefühl sorgt und die Flüssigkeit zum Frottéestoff weitergibt. Der Saugkern aus Frottéestoff absorbiert und speichert die Flüssigkeit. Aussen befindet sich eine wasserundurchlässige Membran, welche das Austreten von Flüssigkeit nach Aussen und somit die Entstehung von Schweissflecken verhindert.

The Protect shirt by ISA bodywear prevents sweat stains under the armpits thanks to its innovative 3-layer technology. You'll no longer be worried out visible sweat stains under the arms, and will be able to feel secure and enjoy freedom of movement. The magic lies in the ingenious structure of the armpit zone with its innovative 3-layer technology that covers a wide area. Trevira fabric, which has antibacterial qualities while being moisture-permeable, lies directly on the skin, ensuring a dry feeling, while passing on moisture to the terry cloth. The absorbent core made of terry cloth soaks up and stores the moisture. A water-impermeable membrane on the outside prevents the moisture from leaking out, thereby preventing sweat patches.

Integrated inner layers made of:
– waterproof and breathable Bionic climate membrane (72% polyamide, 15% polyurethane, 13% elastane)
– absorbent terry fabric (40% micromodal, 40% cotton, 20% polyester)
– antibacterial Trevira fabric – very soft on your skin (100% polyester)

TRADITION AND ALPINE CHIC

DAMIT AUCH SIE SICH WIE EIN SCHWINGERKÖNIG / EINE SCHWINGERKÖNIGIN FÜHLEN KÖNNEN

Unsere Produkte aus der Schwinger- und Alpenschick-Kollektion sind das perfekte Beispiel, wie wir bei ISA bodywear Tradition und Innovation verbinden. Diese am Markt einzigartige Produktlinie für den Herrn, die Dame und das Baby/Kind besticht sowohl durch klassische, aber auch moderne, freche Dessinierungen. Was im 2010 anlässlich des ESAF in Frauenfeld als Test mit einem kleinen Sortiment angefangen hat, ist heute für die Marke ISA bodywear nicht mehr wegzudenken.

POUR VOUS SENTIR VOUS AUSSI LE ROI / LA REINE DE LUTTE SUISSE

Nos produits de la collection Lutteur et Alpenschick sont l'exemple parfait de la manière dont nous associons tradition et innovation chez ISA bodywear. Cette ligne de produits unique sur le marché pour l'homme, la femme et le bébé/l'enfant séduit aussi bien par ses dessins classiques que par ses motifs modernes et audacieux. Ce qui n'était qu'un test en 2010 à l'occasion de la FFLS à Frauenfeld avec un petit éventail de produits est devenu aujourd'hui un incontournable de la marque ISA bodywear.

METTETEVI LETTERALMENTE NEI PANNI DI UN CAMPIONE O UNA CAMPIONESSA DI LOTTA SVIZZERA

I nostri prodotti della collezione dedicata ai lottatori e allo charme alpino sono l'esempio perfetto di come ISA bodywear sappia combinare tradizione e innovazione. Questa linea di prodotti per uomo, donna e bambino non ha eguali sul mercato e colpisce per il design classico, ma al tempo stesso moderno e audace. Da un piccolo esperimento lanciato nel 2010 in occasione dell'ESAF di Frauenfeld è nato qualcosa di grande che oggi è legato a doppio filo con il marchio ISA bodywear.

SO THAT YOU TOO CAN FEEL LIKE A SWISS WRESTLING CHAMPION

Our products from the Schwingen & Alpine Chic collection are the perfect example of how we combine tradition and innovation at ISA bodywear. This unique product line for men, women, babies and children features classic, yet modern, cheeky designs. What started out as a trial with a small range for ESAF (the Schwingen and alpine show) in Frauenfeld in 2010 is now an integral part of the ISA bodywear brand.

NEW, FRESH & HOT – PUSH IT UP!

KOMFORTABEL, MÄNNLICH & COOL

Ob beim Sport oder einfach als bequeme und zugleich perfekt sitzende Unterwäsche – die ultra-maskulinen Modelle von UP setzen den Mann in Szene! Der eine mag lieber den Slip oder die Shorts, der andere die frechen und erotischen String Jocks oder Button Free Slips – in einer UP fühlt sich jeder Mann absolut wohl.

CONFORTABLE, MASCULIN & COOL

Pour le sport ou tout simplement pour profiter d'un sous-vêtement confortable et parfaitement coupé : les modèles ultramasculins d'UP placent l'homme sur le devant de la scène. Qu'il préfère les slips ou les shorts, les string jocks érotiques ou les slips sans boutons, il se sentira parfaitement à l'aise dans un UP.

COMODO, MASCOLINO & COOL

Adatti sia per lo sport che come comoda biancheria intima dall'aderenza perfetta, i modelli ultramaschili di UP mettono l'uomo in primo piano! UP soddisfa qualsiasi gusto, sia degli amanti degli slip che di chi preferisce i boxer, e propone inoltre provocanti ed erotici perizomi o slip senza bottoncini in un UP, ogni uomo si sente assolutamente maschile.

COMFY, MASCULINE & COOL

You want comfortable underwear that sits snugly, regardless of whether you're relaxing or playing sports? Look smooth with our ultra-masculine UP designs! Ranging from simple briefs or boxer shorts through to cheeky and erotic jockstraps or button-free briefs, the UP range has feel-good designs for everybody.

SWISS QUALITY

SWISSLINE
SWISS COTTON
OEKO-TEX® STANDARD 100

So viel Schweiz wie möglich!

Zur ISA-Familie gehören total 220 Mitarbeiterinnen und Mitarbeiter. Davon arbeiten 60 Personen an unserem Hauptsitz in Amriswil und ca. 160 Personen in unserer Näherei in Portugal. Gemeinsam produzieren wir jährlich rund 1,5 Millionen Wäscheteile. Dank unserer langjährigen Erfahrung entlang der gesamten Wertschöpfungskette ist eine konstant hohe Qualität ein Selbstverständnis.

Im Jahr 1849 begründeten unsere Vorfahren die Trikotindustrie in der Schweiz – auch heute halten wir am Werkplatz «Schweiz» fest: So sind wir noch der letzte Schweizer Wäscheproduzent, welcher über eine eigene Strickerei verfügt und einen Grossteil der Stoffe in der Schweiz strickt und ausrüstet. Ebenso finden die Entwicklung und das Design sowie ca. 40% des Zuschnittes in der Schweiz statt. Einzig das Nähen sowie den restlichen Zuschnitt übernimmt unser Werk in Portugal.

Suisse un jour, Suisse toujours!

La famille ISA compte au total 220 collaboratrices et collaborateurs. Parmi eux·elles, 60 personnes travaillent à notre siège d'Amriswil et environ 160 personnes dans notre atelier de couture au Portugal. Ensemble, nous produisons chaque année environ 1,5 million de pièces de lingerie. Grâce à notre longue expérience tout au long de la chaîne de création de valeur, une qualité élevée et constante est une évidence.

En 1849, nos ancêtres ont fondé l'industrie du tricot en Suisse. Aujourd'hui encore, nous restons attachés à la place industrielle «Suisse»: ainsi, nous sommes le dernier producteur de lingerie suisse à toujours disposer de sa propre usine de tricotage et à tricoter et apprêter une grande partie des tissus en Suisse. De même, le développement et le design, ainsi qu'environ 40% de la découpe, ont lieu en Suisse. Seule la couture et le reste de la découpe sont assurés par notre usine au Portugal.

Svizzera il più possibile

La famiglia ISA comprende in totale 220 collaboratrici e collaboratori. 60 di loro lavorano presso la nostra sede centrale ad Amriswil, mentre circa 160 persone sono impiegate presso la nostra sartoria in Portogallo. Complessivamente, produciamo ogni anno circa 1,5 milioni di capi di biancheria. Grazie alla nostra pluriennale esperienza lungo l'intera catena di creazione del valore, mantenere una qualità costantemente elevata è per così dire un aspetto ovvio.

Nel 1849 i nostri antenati fondarono l'industria della maglieria in Svizzera. E ancora oggi siamo strettamente legati alla piazza produttiva svizzera: siamo uno degli ultimi produttori di biancheria elvetici a disporre di un proprio stabilimento di maglieria, nonché a lavorare e rifinire la maggior parte dei tessuti in Svizzera. Allo stesso modo, si svolge in Svizzera anche l'attività di sviluppo e design, così come circa il 40% del taglio. La nostra sede in Portogallo si occupa unicamente della cucitura e della quota residua del taglio.

As much Switzerland as possible!

The ISA family has a total of 220 employees. Of these, 60 people work at our head office in Amriswil and about 160 people work in our sewing factory in Portugal. Together, we produce around 1.5 million items of clothing every year. Consistently high quality goes without saying thanks to our many years of experience throughout the entire value chain.

In 1849, our ancestors founded the knitting industry in Switzerland. Today, our production is still firmly anchored in Switzerland: we are the last Swiss clothing manufacturer that has its own knitting factory, and many of our fabrics are knitted and finished in Switzerland. Likewise, design and development, as well as about 40% of cutting activities, take place in Switzerland. Our factory in Portugal only handles the sewing and the rest of the cutting.

RESPONSIBILITY

MAX HAVELAAR
SOLAR ENERGY

Nachhaltige Rohstoffe

Wir sind langjähriger Partner des Max Havelaar Fairtrade Baumwoll-Programmes und kaufen jährlich ca. 10–15% unseres Baumwollbedarfes über die Max Havelaar Stiftung ein. Dadurch profitieren Kleinbauern und Arbeiterfamilien in den Anbauländern von verbesserten Arbeitsbedingungen, Fairtrade- und Bio-Prämien sowie dem Nutzen von biologischer Landwirtschaft. Zudem setzen wir sowohl in unseren NOS wie auch Mode-Kollektionen besonders nachhaltige Materialien wie bspw. Micromodal ein.

Standort Schweiz und kurze Transportwege

Unser Verständnis von Nachhaltigkeit geht aber weit über den Einsatz von nachhaltigen Materialien hinaus. So produzieren wir einen grossen Teil unserer Stoffe am Hauptsitz im Amriswil, die Veredelung (Waschen, Färben, Ausrüsten) erfolgt ebenfalls unter Einhaltung strenger gesetzlicher Vorschriften bei einem Schweizer Partner. Unsere Produkte machen keine Weltreise, bevor Sie beim Kunden eintreffen: Dank der kurzen Transportwege zwischen den Produktionsstandorten in der Schweiz und in Portugal ist die CO_2-Bilanz niedrig.

Schonender Umgang mit Ressourcen

An unserem Standort in Portugal produzieren wir 100% der benötigten Prozessenergie durch unsere hochmoderne Solaranlage. Ebenso investieren wir konsequent in unseren Maschinenpark, um noch effizienter zu werden und bei der Herstellung möglichst wenig Ausschuss und Abfall zu produzieren.

Matières premières durables

Nous sommes partenaires de longue date du programme de coton Fairtrade/Max Havelaar et achetons chaque année environ 10 à 15% de nos besoins en coton via la fondation Max Havelaar. Les petits producteurs et les familles de travailleurs dans les pays producteurs bénéficient ainsi de meilleures conditions de travail, de primes de commerce équitable et de primes bio, ainsi que des avantages de l'agriculture biologique. De plus, nous utilisons des matériaux particulièrement durables, comme le micromodal, dans nos NOS ainsi que dans nos collections de vêtements.

Site en Suisse et courtes distances de transport

Notre conception de la durabilité va cependant bien au-delà de l'utilisation de matériaux durables. Ainsi, nous produisons une grande partie de nos tissus au siège d'Amriswil, et la transformation (lavage, teinture, apprêtage) est également effectuée chez un partenaire suisse, dans le respect de prescriptions légales strictes. Nos produits ne font pas le tour du monde avant d'arriver chez le client: grâce aux courtes distances de transport entre les sites de production en Suisse et au Portugal, le bilan carbone est faible.

Une utilisation respectueuse des ressources

Notre site portugais produit 100% de l'énergie nécessaire à nos processus grâce à notre installation solaire ultramoderne. De même, nous investissons intelligemment dans notre parc de machines afin d'être encore plus efficaces et de produire le moins possible de déchets et de rebuts lors de la fabrication.

Materie prime sostenibili

Siamo da molti anni partner del programma Max Havelaar Fairtrade per il cotone e acquistiamo ogni anno circa il 10–15% del nostro fabbisogno di questo materiale tramite la Fondazione Max Havelaar. In questo modo, piccoli contadini e famiglie di operai nei Paesi di coltivazione possono beneficiare di migliori condizioni di lavoro, premi per il commercio equo e il biologico, nonché dei vantaggi dell'agricoltura biologica. Tanto nei nostri prodotti NOS quanto nelle collezioni moda impieghiamo inoltre materiali particolarmente sostenibili come per esempio il micromodal.

Sede in Svizzera e tragitti di trasporto brevi

La nostra concezione di sostenibilità va ben oltre il semplice impiego di materiali sostenibili. Per esempio, produciamo gran parte dei nostri tessuti presso la sede centrale di Amriswil, e anche il perfezionamento (lavaggio, tintura, finitura) avviene nel rispetto di severe disposizioni di legge presso un partner svizzero. Prima di arrivare al cliente, i nostri prodotti non fanno dunque il giro del mondo: grazie ai tragitti di trasporto brevi tra gli stabilimenti produttivi in Svizzera e Portogallo, il bilancio di CO_2 è contenuto.

Rispetto per le risorse naturali

Nella nostra sede portoghese produciamo 100% dell'energia necessaria per i processi attraverso il nostro modernissimo impianto fotovoltaico. Allo stesso modo, investiamo in modo coerente nel nostro parco macchine per aumentare ulteriormente la nostra efficienza e ridurre al minimo scarti e rifiuti durante la produzione.

Sustainable raw materials

We are long-term partners of the Max Havelaar Fairtrade Cotton scheme, and buy about 10 to 15% of the cotton we need every year through the Max Havelaar Foundation. As a result, small farmers and working families in developing countries benefit from improved working conditions, fair trade and organic bonuses, as well as enjoy the advantages of organic farming. We also use particularly sustainable materials, such as micromodal, in our NOS and fashion collections.

Location in Switzerland and short transport distances

However, for us sustainability means far more than just using sustainable materials. For example, we produce a large proportion of our materials at the Amriswil headquarters, and the refining (washing, dyeing, finishing) is also carried out under strict legal regulations with a Swiss partner. Our products do not travel around the world before they get to the customer: thanks to the short transport distances between the production sites in Switzerland and Portugal, the carbon footprint is low.

Careful use of resources

At our site in Portugal, we produce 100% of the energy we need through our state-of-the-art solar energy facility. We also invest considerably in our machinery to become even more efficient and to produce as few rejects and as little waste as possible during production.

Design & Development – Switzerland
All ISA bodywear products are developed by our Swiss design and cutting team.

Finishing

2

Fabric production – Switzerland
Ca. 80% der eingesetzten Stoffe entwickeln und produzieren wir in unserer eigenen Strickerei in Amriswil. Wir sind spezialisiert auf die Verarbeitung von Baumwollstoffen und Baumwollmischungen.

Produzione dei tessuti – Svizzera
Circa l'80% dei tessuti impiegati sono sviluppati e prodotti presso il nostro stabilimento di Amriswil. Siamo specializzati nella lavorazione di tessuti in cotone e misto cotone.

Production de tissus – Suisse
Nous développons et produisons environ 80% des tissus utilisés dans notre propre usine de tricotage à Amriswil. Nous sommes spécialisés dans le traitement des tissus en coton et des mélanges de coton.

Fabric production – Switzerland
We develop and produce around 80% of the fabric used in our own knitting factory in Amriswil. We are specialised in working with cotton fabrics and cotton blends.

Fabric Production

3

Finishing – Switzerland
Die von ISA bodywear selbst produzierten Stoffe werden nach höchsten ökologischen Standards bei unserem Partner Schellenberg Textildruck veredelt (gewaschen, gefärbt / gedruckt, ausgerüstet).

Rifinitura – Svizzera
I tessuti prodotti autonomamente da ISA bodywear vengono perfezionati (lavati, tinti/stampati, rifiniti) presso il nostro partner Schellenberg Textildruck nel rispetto dei più severi standard ecologici.

Finition – Suisse
Les tissus produits par ISA bodywear elle-même sont transformés (lavés, teints/imprimés, apprêtés) selon les normes écologiques les plus strictes chez notre partenaire Schellenberg Textildruck.

Finishing – Switzerland
The materials produced by ISA bodywear are refined (washed, dyed/printed, finished) in line with the highest ecological standards by our partner, Schellenberg Textildruck.

Sewing, Quality Control & Packaging

4

Cutting – Switzerland & Portugal
Wir schneiden ca. 20% der Produkte in Amriswil und 80% der Produkte in Portugal zu. Ein Grossteil vollautomatisch auf unseren Zuschnitt-Robotern, delikate Dessins wie bspw. Karos jedoch noch in Handarbeit.

Taglio – Svizzera & Portogallo
Tagliamo circa il 20% dei prodotti ad Amriswil e il restante 80% in Portogallo: gran parte degli articoli è lavorata in maniera completamente automatica dai nostri robot addetti al taglio, ma i motivi più delicati come per esempio gli motivi a quadri sono tuttavia ancora realizzati a mano.

Découpe – Suisse & Portugal
Nous découpons environ 20% des produits à Amriswil et 80% des produits au Portugal. Une grande partie est entièrement automatisée sur nos robots de découpe, mais les dessins délicats, comme les carrés, sont encore réalisés à la main.

Cutting – Switzerland & Portugal
We cut approximately 20% of the products in Amriswil and 80% in Portugal. A large part is made with our fully automatic cutting robots, but delicate designs such as, for example, check patterns are still made by hand.

5

Sewing, Quality Control & Packaging – Portugal
Seit über 40 Jahren verfügen wir in Portugal über einen hochmodernen Konfektionsbetrieb, welcher jährlich über eine Million Teile in gewohnter ISA-Qualität fertigt.

Cucitura, controllo qualità e confezionamento – Portogallo
Da oltre 40 anni disponiamo in Portogallo di un modernissimo stabilimento di confezione che produce ogni anno oltre un milione di capi con la consueta qualità ISA.

Couture, contrôle de la qualité et conditionnement – Portugal
Depuis plus de 40 ans, nous disposons au Portugal d'une usine de confection ultra-moderne qui produit chaque année plus d'un million de pièces dans la qualité ISA habituelle.

Sewing, quality control & packaging – Portugal
For more than 40 years, we have had a state-of-the-art factory in Portugal, which produces more than one million items a year according to usual ISA quality standards.

Trevira®

Strapazierfähig und pflegeleicht
Trevira hat eine Windschutz-Funktion und schützt zuverlässig vor der Abkühlung. Die atmungsaktive und feuchtigkeitsregulierende Funktionsfaser sorgt für ein optimales Körperklima. Superweich und schnell trocknend.

Inusable et facile d'entretien
Le Trevira a une fonction de coupe-vent et protège efficacement contre le froid. Cette fibre fonctionnelle respire, règle l'humidité et veille ainsi à une température optimale du corps. Confortable et très doux, il sèche rapidement.

Resistente e facile da trattare
Trevira con la sua funzione di blocco contro il vento protegge sicuro da raffreddamento. Questa fibra lascia respirare la pelle, equilibra l'umidità trasportandola verso l'esterno e garantisce così un clima ottimale per il corpo. È molto morbido e asciuga in breve tempo.

Hard-wearing and easy to care for
Trevira is a windproof material that can be relied upon to keep out the cold. This practical fibre with its breathability and moisture-wicking properties gives the wearer an optimum personal microclimate. Super soft and quick to dry.

Tactel®

ALL YOU CAN IMAGINE.

Tactel® is a trademark of Lenzing AG

Pflegeleicht und komfortabel
Tactel garantiert höchsten Tragekomfort und eine edle Optik. Die Fasern sind fein und anschmiegsam, sehr pflegeleicht und widerstandsfähig.

Confortable et facile à l'entretien
Le Tactel garantit un porté confortable et a un aspect brillant. Les fibres sont fines et souples, très faciles à l'entretien et très résistantes.

Facile da trattare e comodo da indossare
Tactel garantisce il più alto grado di comfort e un'ottica nobile. Le fibre sono finissime, sono facilissimi da trattare e molto durevoli.

Easy to care for and comfortable to wear
Tactel ensures maximum wearer comfort and a refined appearance. Its fibres are fine and supple, easy to care for and resistant.

Elastane

Elastisch und komfortabel
Diese elastische Faser steht immer in Kombination mit anderen Fasern und garantiert hohen Komfort durch Stretching und Formstabilität.

Élastique et confortable
Cette fibre élastique est toujours en combinaison avec d'autres fibres et garantit un confort supérieur grâce au stretch qui stabilise le maintien des formes.

Elastico e di pieno comfort
Questa fibra elastica è sempre abbinata ad altre fibre naturali o sintetiche. Conferisce ai tessuti un elevato grado di comfort attraverso la sua flessibilità ed il ricupero e la conservazione della sua forma.

Elastic and comfortable
This elastic fibre is always found in combination with other fibres. It guarantees a high degree of comfort with its stretching and shape retention properties.

Baumwolle/Coton/Cotone/Cotton

Natürlich und bewährt
Baumwolle ist eine rein pflanzliche Naturfaser. Je länger und feiner die Fasern, desto hochwertiger das Garn. Baumwollstoffe sind weich und anschmiegsam. Sie zeichnen sich aus durch hohen Tragekomfort und gute Hautverträglichkeit. Die Naturfaser Baumwolle ist pflegeleicht und extrem widerstandsfähig.

Naturel et éprouvé
Le coton est une fibre pure naturelle et végétale. Plus les fibres sont longues et fines, de meilleure qualité sera le fil. Les tissus en coton sont souples et confortables. Ils se distinguent au porter par un degré de confort élevé et conviennent à toutes les peaux. La fibre naturelle de coton est résistante et facile à l'entretien.

Naturale e provato
Il cotone è una fibra vegetale. Più lunghe e più fini sono le sue fibre, più diventano pregiati i suoi filati e tessuti che sono morbidi e gradevoli da indossare e si distinguono di una notevole compatibilità sulla pelle. La fibra naturale di cotone è facile da trattare e estremamente durevole.

A time-honoured natural product
Cotton is a purely vegetable fibre. The longer and finer the individual fibres, the more valuable is the yarn. Cotton fabrics are soft and snug. They offer the wearer maximum comfort and are gentle on sensitive skins. This well-proven natural fibre is easy to care for and extremely resistant.

AGB

Allgemeine Geschäftsbedingungen ISA bodywear

1. Lieferung und Erfüllung

1.1 Erfüllungsort für alle Leistungen aus dem Liefervertrag ist Amriswil (CH).

1.2 Die Lieferung der Ware erfolgt ab Amriswil. Die Versandkosten trägt ISA Sallmann AG.

1.3 Wenn infolge des Verschuldens des Käufers die Abnahme nicht rechtzeitig erfolgt, steht dem Verkäufer nach seiner Wahl das Recht zu, nach Setzung einer Nachfrist von 10 Tagen entweder eine Rückstandsrechnung auszustellen, vom Vertrag zurückzutreten oder Schadenersatz zu verlangen.

2. Vertragsinhalt

2.1 Alle Verkäufe werden nur zu bestimmten Lieferterminen, Mengen, Artikeln, Qualitäten und Preisen abgeschlossen. Hieran sind beide Parteien gebunden.

2.2 Umdispositionen im Rahmen des erteilten Auftrages oder eine Auftragsstornierung sind nur in beidseitigem Einverständnis zulässig.

2.3 Blockaufträge sind zulässig. Diese können in Durchführungsbestimmungen geregelt werden.

3. Lieferfristen

3.1 Verkäufer und Käufer legen den Liefertermin gemeinsam vertraglich fest. Der vereinbarte Termin gilt als verbindlich, sofern der Verkäufer oder Käufer nicht innerhalb von fünf Tagen nach Erhalt des Auftrages bzw. der Auftragsbestätigung Einspruch erhebt. Im Falle des Einspruchs kann ein neuer Liefertermin vereinbart werden.

3.2 Ergeben sich Anhaltspunkte für einen möglichen Lieferverzug, so ist der Verkäufer verpflichtet, den Kunden sofort zu orientieren. In diesem Falle verlängert sich die Lieferfrist automatisch um 18 Tage (Nachlieferfrist).

3.3 Bei höherer Gewalt, Arbeitskampfmassnahmen, behördlichen Massnahmen sowie unverschuldeten Betriebsstörungen, die länger als eine Woche gedauert haben oder voraussichtlich dauern, wird die Lieferfrist bzw. Abnahmefrist ohne Weiteres um die Dauer der Behinderung, längstens jedoch um fünf Wochen zuzüglich Nachlieferfrist verlängert. Die Verlängerung tritt nicht ein, wenn die andere Partei nicht unverzüglich in Kenntnis über den Grund der Behinderung gesetzt wird, sobald feststeht, dass die vorgenannten Fristen nicht eingehalten werden können.

4. Mängelrüge/Retouren

4.1 Offene Mängel gelten als rechtzeitig gerügt, wenn sie innerhalb von 14 Tagen nach Empfang der Ware geltend gemacht werden.

4.2 Handelsübliche oder geringe, technisch nicht vermeidbare Abweichungen dürfen bei der Lieferung vertragskonformer Ware nicht beanstandet werden. Für verdeckte Mängel gelten die Bestimmungen des Schweizerischen Obligationenrechts.

4.3 Der Käufer darf die Ware dem Verkäufer nicht ohne hinreichende Begründung zurücksenden.

5. Zahlung

5.1 Rechnungen sind zahlbar:
Innerhalb von 10 Tagen vom Tage der Ausstellung der Rechnung an mit 4% Eil-Skonto;
Ab 11.–30. Tag vom Tage der Rechnung an mit 2,25% Skonto;
Ab 31.–60. Tag vom Tage der Ausstellung der Rechnung an netto.

5.2 Massgebend für die Einhaltung der Zahlungsfristen und die Skontoberechtigung ist das Datum der Posteinzahlung oder des Zahlungsauftrages des Käufers an die Bank. Fällt der letzte Tag der Zahlungsfrist auf einen Samstag, Sonntag oder gesetzlichen Feiertag, so kann die Zahlung am nächstfolgenden Werktag vollzogen werden.

5.3 Unberechtigte Skontoabzüge sind vom Schuldner zurückzufordern.

AGB Download

6. Zahlungsverzug

6.1 Bei Zahlung nach Fälligkeit ist der Verzugszins von 5% zu bezahlen.

6.2 Vor der vollständigen Bezahlung fälliger Rechnungsbeiträge, einschliesslich Verzugszinsen, ist der Verkäufer zu keiner weiteren Lieferung aus irgendeinem laufenden Vertrag verpflichtet.

6.3 Ist der Käufer mit einer fälligen Zahlung in Verzug oder tritt in seinen Vermögensverhältnissen eine wesentliche Verschlechterung ein, so kann der Verkäufer für noch ausstehende Lieferungen aus irgendeinem laufenden Vertrag unter Fortfall des Zahlungszieles bare Zahlung vor Ablieferung der Ware verlangen.

7. Zahlungsweise

7.1 Die Zahlung hat zu erfolgen in barem Geld, Scheck-, Bank-, Giro, oder Postchecküberweisung.

7.2 Die Aufrechnung ist nur mit unbestrittenen oder rechtskräftig festgelegten Forderungen zulässig. Die Zurückbehaltung fälliger Rechnungsbeiträge ist unzulässig; dies gilt nicht im Falle der Zahlungseinstellung des Verkäufers. Sonstige Abzüge sind unzulässig.

8. Eigentumsvorbehalt

8.1 Die gelieferte Ware bleibt bis zur vollständigen Bezahlung Eigentum des Verkäufers. Der Käufer kann jedoch die Waren im Rahmen eines ordnungsmässigen Geschäftsbetriebes veräussern.

9. Gerichtsstand und anwendbares Recht

9.1 Es gilt Schweizer Recht – Gerichtsstand ist Amriswil.

10. Konditionen

10.1 Der Mindestbestellwert ohne Versandkosten pro Lieferung beträgt in der Schweiz CHF 300. Andere Länder gemäss aktuell gültiger Preisliste.

10.2 Produkte von ISA Sallmann AG dürfen nur im eigenen Geschäft und dem Endverbraucher verkauft werden.

10.3 Ein Internet-Onlinehandel mit Produkten von ISA Sallmann AG darf nur nach vorheriger Einwilligung durch die ISA-Geschäftsleitung durchgeführt werden. Hierfür gelten die Richtlinien für den Vertrieb via Internet.

11. Preise

11.1 Die Preislisten der ISA Sallmann AG enthalten neben den Einkaufspreisen unverbindliche Verkaufsempfehlungen. Insbesondere ist es den Händlern erlaubt, sich gegenseitig zu konkurrenzieren und dabei von den unverbindlichen Preisempfehlungen abzuweichen. Absprachen, auch stillschweigender Art, oder aufeinander abgestimmtes Verhalten über Fest- oder Mindestpreis sind nach Art. 5 des KG verboten.

12. Werbung

12.1 ISA Sallmann AG beteiligt sich nach gegenseitiger Absprache punktuell an den Werbekosten.

LOUIS MARGOT & HUMAN IMPULSE – NACHHALTIGKEITSBOTSCHAFTER VON ISA BODYWEAR

Louis hat einen waghalsigen Plan – Innerhalb von 3 Jahren wird er die Welt mit seinem Velo und Ruderboot umrunden, dabei setzt er nur auf seine eigene Muskelkraft. Sein Ziel: Junge Leute dazu inspirieren, ihre Träume zu verwirklichen und dabei die Umwelt zu respektieren. Wir sind stolz darauf, Louis auf diesem Abenteuer begleiten zu dürfen. Mehr Informationen: **www.humanimpulse.ch**

LOUIS MARGOT & HUMAN IMPULSE – SUSTAINABILITY AMBASSADOR OF ISA BODYWEAR

Louis has an audacious plan – to circumnavigate the world in 3 years by bicycle and rowing boat, relying only on his own muscle power. His goal: to inspire young people to achieve their dreams while respecting the environment. We are proud to be part of this adventure. More information: **www.humanimpulse.ch**

LOUIS MARGOT & HUMAN IMPULSE – AMBASSADEURS DE LA DURABILITÉ D'ISA BODYWEAR

Louis a un projet audacieux – en l'espace de 3 ans, il fera le tour du monde à vélo et à la rame, en ne comptant que sur sa seule force musculaire. Son objectif : inspirer les jeunes à réaliser leurs rêves tout en respectant l'environnement. Nous sommes fiers de pouvoir accompagner Louis dans cette aventure.
